I, _____, understand that Dr. Louisa L. Williams, a
(your name)

naturopathic doctor, has graduated from a federally-accredited four year naturopathic medical school, John Bastyr University, has taken and passed all phases of the national Naturopathic Physicians Licensing Examination (NPLEX) and is licensed as a naturopathic doctor in the state of Vermont. I further understand that naturopathic physicians are not licensed in the state of Texas.

Along with standard examination, history taking, laboratory tests and appropriate x-rays, Dr. Williams also utilizes energetic testing techniques including applied kinesiology (muscle testing) and reflex arm length testing (MRT). Like laboratory tests (which can give false negative as well as positive results), no energetic tests are 100% accurate and are used simply as a tool to help guide us to the most appropriate treatment techniques and remedies. I am also aware that she utilizes the following alternative holistic treatments: homeopathy, drainage remedies, cell salts, nutritional supplements, auriculotherapy (from France, not China), botanical medicine, and spinal and cranial manipulation. The theory underlying any of these treatments is available upon request.

Additionally, I, _____, am not associated with any
(your name)

government agency, insurance company, or other groups aimed at investigating or eliminating natural medicine. I am simply here as an individual who wants to feel better.

I have read and understood this document.

MISSED APPOINTMENT POLICY: You will be charged for the appointment fee scheduled if an appointment is not cancelled at least 24 hours in advance.

***The “Sensation Method” refers to the teaching of Dr. Rajan Sankaran and Dr. Divya Chhabra of Mumbai (Bombay), India, who have developed a revolutionary new way of arriving at the correct homeopathic constitutional remedy. (Go to www.cchomeopathic.com and click on “vital sensation” for more information). Dr. Williams has spent the last 15 years intensively studying this system in order to use it successfully with her patients. She has found this homeopathic constitutional remedy to be the most curative and preventive medicine known. In fact, this remedy is *so* essential to optimum health that it is not taken simply for months, or even a few years, but is taken intermittently as needed for one’s *entire* lifetime.**
